

I am demanding that Net Neutrality be left alone and untouched by this Commission. The FCC should cease and desist taking on the role of "corporate protector". I WANT NET NEUTRALITY to be left untouched by corporate interests. Ajit Pai, you need to heed the words of the populace, and NOT the corporations from whence you have come. They (and you, it seems) are NOT thinking of anyone's but media corporations' and your own financial benefits and interests and we in the public see your intentions, no matter how skillfull you are with the English language. WE SEE YOU. WE KNOW YOU. You hold your seat to protect the public and OUR freedom of information on the internet as well as on the airwaves across this country... Information DOESN'T BELONG to corporations and they have no business trying to control who can get access and how difficult it is to do so. Your attempts to project this as a "good" thing are pathetic and will especially negatively affect minority communities. Controlling who gets access to information, how and when, or if ever, is a racist act and you, as a South Asian "minority" in these United States, should not only remember who you are, but where you and your parents and all your other family members have come from. You should be ashamed of yourself. Your parents should be ashamed of you too. PROTECT INTERNET ACCESS FOR ALL-NOT FOR THE CORPORATIONS. We are all WATCHING YOU.
